

How it works?

1. Choose a recipe relevant to your family
2. Read the ingredients & steps together
3. Do the task on your own device
4. Check the final checklist at the end

No experience needed. Your child shows you the way.

What is a Digi-Recipe?
Short, clear, step-by-step guides that help families learn digital skills together - one task at a time.

Each recipe takes 10-15 minutes and covers one real-life digital task.

**Your child guides. You do.
Together you learn.**

DIGI-RECIPES
My New Digital Family

20 step-by-step guides for families

<https://digigap.eu/>

Module 1

Basic Digital Operations

-  Canva: Create a design
-  Google Docs: Write & share
-  Gmail: Send your first email
-  Google Calendar: Plan your week
-  Google Search: Find anything

Module 3

Responsible Social Media

-  Create a family business post
-  Make a short video with your phone
-  Reply politely to comments
-  Create a Facebook account
-  Use AI to write a post

Module 2

Online Safety & Data Protection

-  Change your WiFi password
-  Set up Two-Factor Authentication
-  Check app permissions
-  Spot a phishing email or SMS
-  Check if a website is safe

Module 4

Personal Development Tools

-  Create a Revolut account
-  Browse & compare online courses
-  Add a family event & reminder
-  Record a household expense
-  Focus without distractions

Ready to cook? Pick any recipe. Try it tonight.

Tips for families

- Let the parent do: the student only guides
- One recipe per session is enough
- Repeat a recipe until it feels comfortable
- Celebrate every small win
